FACTORY PRODUCES HEAVY ROLLERS: CEMENT PLANT TO GET VERTICAL FURNACES

CASTS 1,000TH ROLLER -- Ljubljana Slovenski Porocevalec, 11 Jul 50

The roller factory in Store, Slovenia, recently cast its thousandth roller. By the end of 1950, the factory will cast 19- to 20-ton rollers. During the last 2 years the factory was equipped with three cranes and three cupola furnaces. At present a flame-hardening furnace is being built. It is scheduled to be completed by 15 August 1950.

2 FURNACES TO BE COMPLETED SOON -- Ljubljana Slovenski Porocevalec,

Two vertical furnaces will be completed soon in the "Partizan Cement Factory in Split. The two furnaces will cause a considerable increase in production. The first furnace will begin operation in 3 weeks.

FACTORY PRODUCES VARIOUS PRODUCTS -- Ljubljana Slovenski Porocevalec, 29 Jul 50

The "Remont" Factory in Vizmarje, which was previously a part of the "Litostroj" Enterprise, recently constructed a rotary furnace for calcining bones for the glue factory in Ljubljana and a second rotary furnace for the new "Titan" steel-casting foundry in Kamnik. The factory also produced crane tracks for the "Unitas" Factory, and equipment for the Metallurgical Institute, including a miniature crane.

The factory will soon complete 24 milk tanks, each holding 5,000 liters of milk.

One of the shops of the factory constructed 20 threshing machines this year, and the shop in Skofija Loka constructed 15 complete cableways, which can transport five logs simultaneously.

50X1-HUM

The two foundries of the "Remont" Factory (near Podsmreka, which is a village near Poljane) cast parts for textile machines, parts for doors and windows, and parts for silogrentila parts.

NEW PREFABRICATED HOUSE FACTORY UNDER CONSTRUCTION -- Ljubljana Slovenski Porocevalec, 12 Aug 50

In April 1950 the "Ivan Macek-Matija" (formerly "Gradis") Enterprise began the construction of a prefabricated house factory in Ljubljana. The two concrete workshops and one mechanical workshop are in process of being built. The factory is located between the Ljubljana Airport and the "Saturnus" Factory. The two workshops where the concrete will be mixed are 90 meters long and 20 meters wide. Later a third such shop will be constructed.

Large gravel pits will be opened in the vicinity of Tomacevo, Jars, and Smartno on the Sava River.

The factory, which is expected to be completed in a few years, will cover an area of 600,000 square meters. It will produce prefabricated houses with a total of 200 family apartments.
